Dear Parents

Hope all is well with you at home. We received a clarification from the deputy Minister of Education yesterday about who can enter our buildings. **We are expected to follow these directives – no exceptions:**

- **Only those people who absolutely need to be in schools and centres are allowed to enter the building.**
  - This would include emergency daycare personnel and clientele
  - Principal/centre directors, admin staff, caretakers, authorized board personnel
  
- NOT ALLOWED in our schools and centres
  - Parents and students are not allowed to enter the school– **no pick ups of materials or personnel belongings**

Please note that our school has been chosen as a site to provide emergency daycare services to health care providers. Please do not come by the school.

I hope that you are keeping well and healthy. Here are some reminders:

- It is very important that everyone does their part and keeps their social distance so we have a chance to get Covid-19 under control. This means no playdates, sleepovers, family dinners, etc for the time being.
- Practice hand washing and sneeze/cough etiquette.
- Should you have any symptoms, please contact Public Health: 1 877 664-4545

Stay safe,

Julie
